Experience

From **15/5/1991 – 28/2/1995** I worked as training personnel and from **1/3/1995 until today** as scientific personnel in Chemical Engineering Research Institute (Laboratory of Environmental Fuels and Hydrocarbons).

During these years I have participated in many research activities of the Laboratory such as:

- Simulation of physicochemical processes
- Development of user interfaces with Delphi software
- Participation in the project of creating a Centre for Technology Transfer at the Technological Park of Thessaloniki by preparing a list of Research and Technological Development Laboratories of Greece
- Participation in many research projects (handling data from catalysts evaluation studies, preparation of reports and presentations etc.)
